

Right now I'm all about the future,
Leaving the past behind, and to
think about moving forward in life.
I do not want to be back here again,
wasting precious years of my life.
These are the years which I could start
a career, maybe get a girl friend,
to strive and work hard for my
future. Even though jail is a negative
experience I managed to turn it in to a positive
one, I could not have done this without help,
and great advice from a good mentor from
VSE, Prescilla. Even though she was a mentor
I also saw her as a friend in jail who I
could open up my feelings to.
